- **Usable area:** 0.88 m²/panel - 1160 mm x 760 mm x 43 mm
- **Overall dimensions:** 1200 mm x 800 mm x 43 mm
- **Weight:** 32 kg/plaque
- **Permissible load:** 30 tonnes/m² selon la nature du sol
- **Transport:** 30 panels / pallet, 24 pallets per articulated lorry, ie 635 m²
- **Accessories:** Ramps, inverters, 1/2 panels

Properties

- Solid one-piece construction.
- The panels are laid in staggered rows and fit together thanks to a system of male and female edges.
- The installation does not require the use of specific tools.
- These panels are ideal for events, concerts, festivals and building sites.
- They allow accessibility to pedestrians, persons of reduced mobility, light and heavy-goods vehicles.
